Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 16 January 2007 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 5 and 6 are finally rejected under 35 U.S.C. 102(b) as anticipated by JP 2002-126985, cited by applicant, and as set forth in the previous Office action.

Further, '985, discloses calculating ("setting") the chamfering shape and controlling and carrying out the processing of the chamfering based on the chamfering shape. See column 11 lines 53 through column 14, lines 51, of the English language equivalent 6,688,944, which describes calculating or setting the chamfering shape and using that data to control the grinding processes. Further, '985 discloses displaying at least one of a width of an ear side, a range of an ear side, a width of a nose side and a range of a nose side of the chamfering on a display means. Please see figure 9 of '985 and

Art Unit: 3723

English translation '944 and to column 12, lines 54-62 of English translation '944. The lens has a right and left side, which would equate to a nose and ear side respectively, when the lens is in the frame. Note that the width of top, bottom, right and left of the lens is shown. Note also that the range of each side, in that the length of each side, is shown.

Response to Arguments

4. Applicant's arguments filed 16 January 2007 have been fully considered but they are not persuasive. Applicant argues that '985 does not disclose displaying at least one of a width of an ear side, a range of an ear side, a width of a nose side and a range of a nose side of the chamfering on a display means. The examiner disagrees, and again directs applicant's attention to the rejection above. If applicant has any evidence that 6,688,944 is not a translation of '985, and that figure 9 of '985 does not disclose the displayed information as claimed, it should be presented.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maurina Rachuba whose telephone number is 571 272 4493. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 571 272 4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
